# BeetBook Installation Guide

---

Welcome to BeetBook, the premium desktop application for keeping track of contacts! Below you will find a brief walkthrough of all of the ways you can interact with and use BeetBook
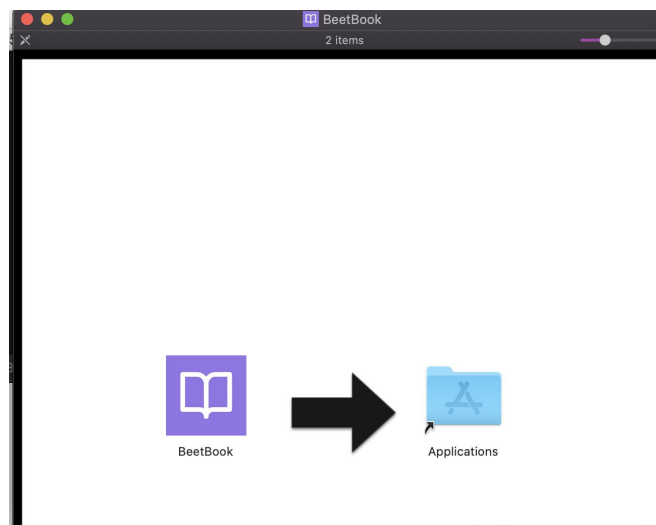

Installing BeetBook on macOS

*Note:* Please see user guide for help using BeetBook.

1. Double Click "BeetBook.dmg"

2. A window will show up (see picture below).
3. Click and hold the BeetBook icon to drag it to the Applications folder:

4. Double click the Applications Folder icon. This will open up your applications folder (see picture below).

5. Double Click the BeetBook icon to run the program.

Installing BeetBook on Windows

Note: *Please see user guide for help using BeetBook.*

1. Double click **BeetBook-1.0.0 Setup**:

Name	Date modified	Type	Size
BeetBook-1.0.0 Setup	11/1/2019 1:41 AM	Application	109,501 KB
BeetBook-1.0.0-full.nupkg	11/1/2019 1:41 AM	NUPKG File	104,182 KB
RELEASES	11/1/2019 1:41 AM	File	1 KB

2. You will see a gif displayed while BeetBook is installing:

3. After the app is finished installing, it will automatically launch BeetBook.
4. A shortcut icon was created for you during installation. It will be on your Desktop. To reopen BeetBook, double click the **BeetBook app icon**:

5. The app itself is installed in %LocalAppData%\BeetBook
